Robin's "DVLA Funny Farm" page www.gpss.co.uk/ffdvla.htm

Updated 0915 UK (also 0915z GMT/UT/GPS Time) Sunday 5th March 2023 UK time.

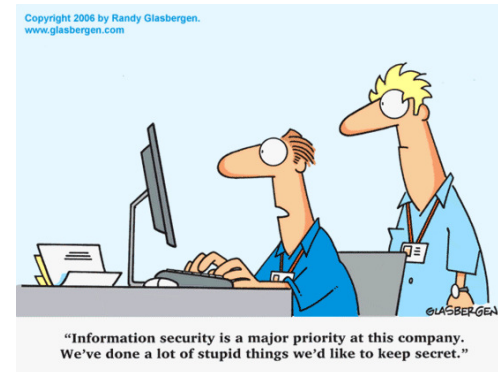

This information is in the Public Domain, hoping it will help others, and - maybe - Robin :-)

Newsflash: hidden draft of this page made public 10 days after Robin's fat letter given to DVLA.

See footnotes at end, including 19 & 20. Updates to this page MAY continue, if Robin has the time :-)

Contents ...

1. Introduction by Robin Lovelock in Sunninghill.

21. Who has visited this page ?

For those using translation flags: the guy in the cartoon is saying, "Information Security is a major priority at this company. We've done a lot of stupid things we'd like to keep secret." :-)

1. Introduction by Robin Lovelock in Sunninghill ...

From Robin in early 2022: I set up this page after my wife June and I read a letter from the DVLA (UK Driver Vehicle Licencing Agency) which said that I could not drive, and I had to return my driving licence to them in their provided envelope - not provided :-)

My time is precious, as is that of many people, so this page starts with material that has been in the Public Domain for years.

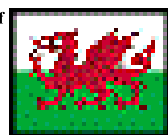

It is my hope that some of it will be of use to others, whoever they are, and I obviously hope it will speed up the process of mistakes being recognised, explained, and my being able to drive again :-)

<- Tap or Click to [Print ffdvla.pdf](#) . Many of us prefer paper ! However, paper will not follow links or play videos ... yet ! :-)

Note that an earlier copy of this page, was sent to a few guys, including the DVLA, and Tim Burton at his home address :-)

Why those translation flags at the top ? A few readers may wish to share this page with friends or family whose English may not be good. A large proportion of those I know, working within the NHS and Social Services, have roots in places like India, Pakistan, Romania, Philippines, Zimbabwe, South Africa, and Nigeria. Note that the British DVLA is in Cardiff, in Wales - which has it's own language: Welsh. Tap or Click on that Red Dragon Flag above, or on right, to read Welsh. It may seem like a diversion, but on June & Robin's [Camper](#) trip to Wales, it took Robin a while to learn that the white painted "ARAF" on the road, meant "SLOW" - and not another Royal Air Force (RAF) base they were visiting :-)

2. Who IS this guy Robin Lovelock - the author of this page ?

Before reading anything in depth, it's not a bad idea to know who wrote the material, and so I start with relevant extracts from some of my many pages.

I will then present evidence, such as the letters received from the DVLA, and, before that, from the lovely Chakita, on behalf of Social Services, of Windsor & Maidenhead Council.

I never received a copy of the letter that went from my Lightwater Surgery, which seems to have sparked the problem.

"Mistakes Happen", and I certainly do not want anyone used as a "scapegoat". It could have been simple "human error", or an error in a computer "I.T" (Information Technology) system somewhere. Hardly surprising in "Covid19 Times".

Many will be surprised at how much I put into the Public Domain in late 2015 - those "Bluebell" pages - but I like to think it did some good, resulting in important people "coming out" on their mental health problems in early 2016.

"Openess" is an effective counter-measure to secrecy being used to hide mistakes or dishonesty :-)

As I've said for years, "I've always been crazy, since a child, and many of the guys I admire most are - in my opinion - even crazier :-)

Retired years ago ! Too busy for real work ! :-)

I entered Defence Industry as an apprentice in the mid 1960s. [Ferranti](#) sent me to [City University](#) for a B.Sc in Electrical & Electronic Engineering. That's where I saw [Dr Strangelove](#) . . . I became a Systems Engineer, and work included Royal Navy ship software. I worked for SHAPE as a NATO scientist through the 1970s, when GPS and the Internet were secret. See [Robin's memories of STC and John Maniello](#) . Our young family returned to the UK in 1981 and I worked for [EASAMS](#) until starting our small GPS Software business in 1994 - now a hobby. In publicity about Snoopy's Robot Boat, the Press called me a "Retired NATO Scientist". Perhaps that should have been "Mad Retired NATO Scientist" :-)

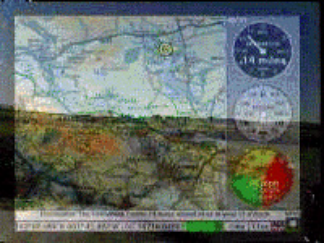

The following is at the bottem of my "Coughlan Campaign" Charitable web site, www.NHSCare.info , and also and near the top of the linked "Bluebell" pages - "Robin's mini-autobiography from a shrink's point of view" :-)

"With those close to me affected, I feel strongly about the issues surrounding mental health. So I found your account of your stay in Bluebell Ward and your 'inside story' of the NHS mental health system in general, absolutely fascinating and extremely insightful. I really appreciate you taking the time to get in touch and I have enclosed a booklet in which I wrote a chapter about mental health when I was first elected in 2005, which you may find interesting. As your MP" etc. Note from Robin: Adam's is Chapter 1 of the book: "the forgotten ... new thinking on society's most vulnerable people, from the Class of 2005 Conservative MPs". Published in Oct 2006 by The Class of 2005. ISBN 0-951909-5-9 Chapter 1, "The Great Depression" is ~23 pages starts with an excellent overview of mental health within society, then concentrates on "Depression", concluding with specific recommendations, the first of which was: 1) Tackle Stigma - ending with "... my key recommendation is that national figures should speak freely about depression and mental health disorders". Maybe Adam was 10 years ahead of his time ? Famous personalities (I'm certainly not one) have signed a petition, and "come out" on their personal interest in Mental Health issues.

The following is from my [AsOnTV](#) page ...

Robin has also appeared on TV a number of times, related to his charity web site www.NHSCare.info , set up in 2003 to provide advice on obtaining free NHS long term care. He appeared on BBCTV's "The Politics Show", BBC News 24, and Sky TV.

However, Robin was rarely the "front man" in these broadcasts: others, far more eloquent, appeared in many more broadcasts, including Steve Squires, Derek Cole, Ian Perkins, Bledwyn Hancock, and Pam Coughlan herself.

Robin simply maintains his web pages, and puts journalists in contact with the right people.

The following is from Robin's [Snoopy Robot Boat](#) page ...

Snoopy is at home in Sunninghill, in Robin's Games Room or back garden. The boat needs proper checking and test before Snoopy's 2021 Atlantic Attempt.

Robin, June, and other Team-Joker members, have other things taking their time. e.g. Coping with [Covid19](#) ; Health problems; That [Flat Roof & Kitchen](#) work is still on-going. June likes her tennis; Robin likes minimum hassle and spending time with Grumpy Old Men :-)

Click on pictures to expand, play, or visit the relevant page. Robin claims that some of his friends, and work-mates over the years, are crazier than he. We all have our "crosses to bear", be it recent bereavement, physical health, addiction, or stigma resulting from mental health problems. Sometimes many things overlap, such as helping friends, making new ones, or doing work in the [Garden](#) . Robin prefers to just oversee work :-)

Dear Mr Lovelock,

Important – you must not drive

We have received medical information that you have recently suffered a psychiatric illness so you should not drive at present.

This means that your entitlement to drive will be revoked (cancelled) from 2 February 2022. Your current driving licence must be returned to the DVLA at the address above.

The Secretary of State's Specialist Panel advises that stable good mental health is required for at least 3 months as well as maintaining satisfactory engagement with any recommended treatment. A longer period may be required if you suffer a relapse or the symptoms become focused on situations relevant to driving. You can consider re-applying* when your doctor is able to confirm that you meet these criteria.

We would suggest that you discuss this with your doctor. You will need to take this letter to show him/her as they may not be aware of the decision. You and your doctor can obtain more information about the current medical standards for driving from www.gov.uk/dvla/fitnessdrive

Please Note:
 If you have any additional medical information that was not considered as part of this enquiry we may be able to review your case. Please send it to Further Evidence, CCU30, DGFW, DVLA, SA99 1ZZ and quote our reference at the top of this letter.

You can appeal to the courts against this decision. You should do this at:

- your local Magistrates' court within 6 months of this notice if you live in England or Wales* or
- your local Sheriffs Court within 21 days of this notice if you live in Scotland.

You must write and tell us (DVLA) if you do this using the address at the top of this letter.

*If you are eligible to re-apply in the future, you should complete a D1 application form. You can get this from www.gov.uk/dvla/forms or from a Post Office that offers driving and vehicle services. You can also fill in the appropriate medical questionnaire, which you can download from www.gov.uk/browse/driving/disability-health-condition. If you send a completed questionnaire with your application it will speed up the enquiry process.

Dear Robin,

Kindly accept my apologies for delay in posting the discharge summary. On 22nd of June 2021 my colleague Andrew Smith and myself visited you to meet with you and your wife June, at your home address. During this visit we discussed about your discharge from the WAM-CMHT services and you stated you are ok with the plan.

In 2019 following your relapse in your mental health you were offered a treatment to help you recover at mental health hospital. You were referred to care coordination and medication review with consultant psychiatrist following your discharge to community from mental health hospital.

My role in your care was to monitor your mental health and sign post you to right services to help you with recovery. During this period, I discussed with you about Bipolar relapse prevention group which is organized by our IPT team, and advised it might benefit you to get an understanding about your diagnosis and how you can minimise the risk of relapsing in the future. You reported that you aren't ready to attend this group session.

In February 2020 Dr Smita Joshi (Consultant psychiatrist) met with you and your wife June at Nicholson House for the initial assessment appointment. During this appointment you reported Dr Joshi that once again you decided to discontinue the Olanzapine completely in December.

5. Email sent to Lightwater Surgery requesting copy of their letter to DVLA ...

This email was sent by Robin on Saturday 5th February 2022 to Admin at Lightwater Surgery ...

Subject: URGENT: copy of letter(s) from Dr Sara Jones to DVLA ref Robin Lovelock DOB 25/05/1947

Good Morning ladies. Sorry but this is urgent. Please acknowledge receipt of this email ASAP.

hen, please provide copies of all the letter(s) sent from Dr Sara Jones to DVLA.

Ideally, you would email them to me and CC those CCd here, or, if your procedures dictate, just myself.

If there is any policy which prevents me, the patient, getting copies, please say - but I am sure there is not :-)

If possible, please provide paper copies for collection from your front desk, today, or ASAP.

The reason for this request is that, for reason(s) yet unknown, the DVLA has asked me to return my driving licence.

The obvious consequence of this is that I will need to find one of the surgeries closer to me to walk, such as Kings Corner, or Magnolia House. Maybe it is possible to be signed up to more than one ? But let us not digress :-)

On a personal note: many thanks for your professional and friendly service since 2015, and check out my youtube channel with videos of Grumpy Old Men having pub lunch at the Red Lion near you: I am usually their chauffer - not possible now :-)

Love & Strength x :-)

Take Care

7. Letter from Dr Sara Jones of Lightwater Surgery to DVLA collected by Robin on Monday 7th February 2022 ...

This is the letter that Dr Sarah Jones sent to the DVLA, after her meeting with Robin and June, and results of the non-fasting blood test.

June has scanned it, and converted it to a printable PDF file as [fdvlas1.pdf](#) but this image has extra information from Robin.

He is familiar with some guys not wanting to have information disclosed to others, including close relatives. He saw this with June's late father [Jack Ponsford](#) .

He understands the risks of putting such information into the Public Domain, including leaking to insurance companies.

In his opinion, it is all a matter of "a balance of risks" regarding his health.

He understands that GP Surgeries, that are private businesses, contracted by the NHS, need to be careful.

Of course, June Lovelock has been present at all meetings between Robin and Doctors, at Robin's request, and some Surgery staff may not be aware of this.

Robin has not been given any detail of communication between Dr Joshi and the Surgery.

More here in due course. e.g. alternatives to taxis, such as walking or a bicycle - suggested by his close friend and ex [EASAMS](#) workmate Terry :-)

8. Robin's Walk to Investigate GP Surgeries nearer to him on Wednesday 9th February 2022.

First a map, showing surgeries nearby; then my walk to some of them; then a long walk to Lightwater ? :-)

More here in due course. Maybe other places Robin visited on his walk, such as The Funeral Director and then the Butchers :-)

9. Companies contracted by the NHS & Government, like Optalis Ltd

When receiving a service, or being recommended more of the service, it's not a bad idea to know who is paying the worker. This applies to anything, including a Hospital surgeon, your GP, nurses, and social workers. Just because it is "Free" and provided by the NHS, does not mean it might be influenced by the financial position of the provider. Social work can be difficult, particularly when dealing with alcohol or drugs, and guys with a history of violence. Visiting nice people like Robin & June might be considered a relief. Also, God Forbid that there is any "kick back" from drugs companies, when medication is prescribed - Robin is joking, of course :-)

Robin was delighted by the professional and friendly visits by Chakita and others, who he understands, were employed by [Optalis Ltd](#) , contracted by the NHS and/or local Government. You can read more of this company on the Companies House website, including it's past directors and present. See <https://find-and-update.company-information.service.gov.uk/company/07630156> . Further to my form completed last week, I spoke to the patient's psychiatrist. Dr Joshi knows him well and does not feel there is normally any risk with driving, but she did add that he does not agree to take medication they recommend and does not accept home visits, so they were obliged to discharge him.

His wife, as I said, is happy he is safe driving.

I hope this helps, rather than merely add to the complexity of this gentleman's clinical condition.

Yours faithfully

Dr Sara Jones

Millars Lane Wokingham, is where Robin's father Len Lovelock worked, as did his Uncle Ron Sharp, who ran the Laboratory. Before joining [Ferranti](#), who sent him to [City University](#), Robin worked for two 6-month periods at Radyne, in between those doing his ONC (Ordinary National Certificate) at High Wycombe Technical College - where Lord Carrington presented Robin with a book. During his spell in the laboratory, Robin was taught to write everything down in his "Engineer's Logbook" :-)

Tap or Click on the pictures to expand - if you dare ! Many are from my "Bluebell" pages, published in late 2015. The last two are from my [History](#) page :-)

10. Effect on our "Charitable Work", Life, and "Well-being", and Robin Driving Videos :-)

A few words and videos are here, to explain what Robin typically uses his driving licence for. e.g. to visit gardens with June, open under the National Garden Scheme (NGS) charity; visits to see friends and relatives, who may not be in the best of health; discussing overseas charity projects; providing transport for friends unable to drive; visiting DIY stores and garden centres, to buy materials for projects in the garden, and prepare for our 50th Wedding Anniversary Party; etc, etc. Don't forget those lovely trips to the West Country, visiting Pam Coughlan, and then Wales, in his car then our Camper; Visits to Chobham Common, for walks, or working with CCMFA and Surrey Wildlife Trust; Being chauffer for taking two other Grumpy Old Men to the Pub for lunch. Some of these videos show Robin driving - you can judge if he was safe :-)

11. Timeline of events: Robin had been driving since September 2019 - and since 1964 ? :-)

This letter from the DVLA seems to be the first time Robin had been requested to stop driving since September 2019. His spell in Farnham Hospital "Funny Farm" seems to have been 3 weeks, from 26th July 2019 (James Lovelock's Birthday) until 15th August. Regular weekly "Pub Lunches" with at least Stuart & Richard seemed to have started the next day. Robin wonders how good they remember if someone other than Robin was chauffer ? :-)

More detail to be put here, preferably shown graphically for clarity. e.g. unformatted text as below ? :-)

In February/March 2022, an email was sent to the DVLA by one of Adam's Case Workers. See [Wiki on Adam Afraye](#) . See Adam on Robin's [www.NHSCare.info](#) :-)

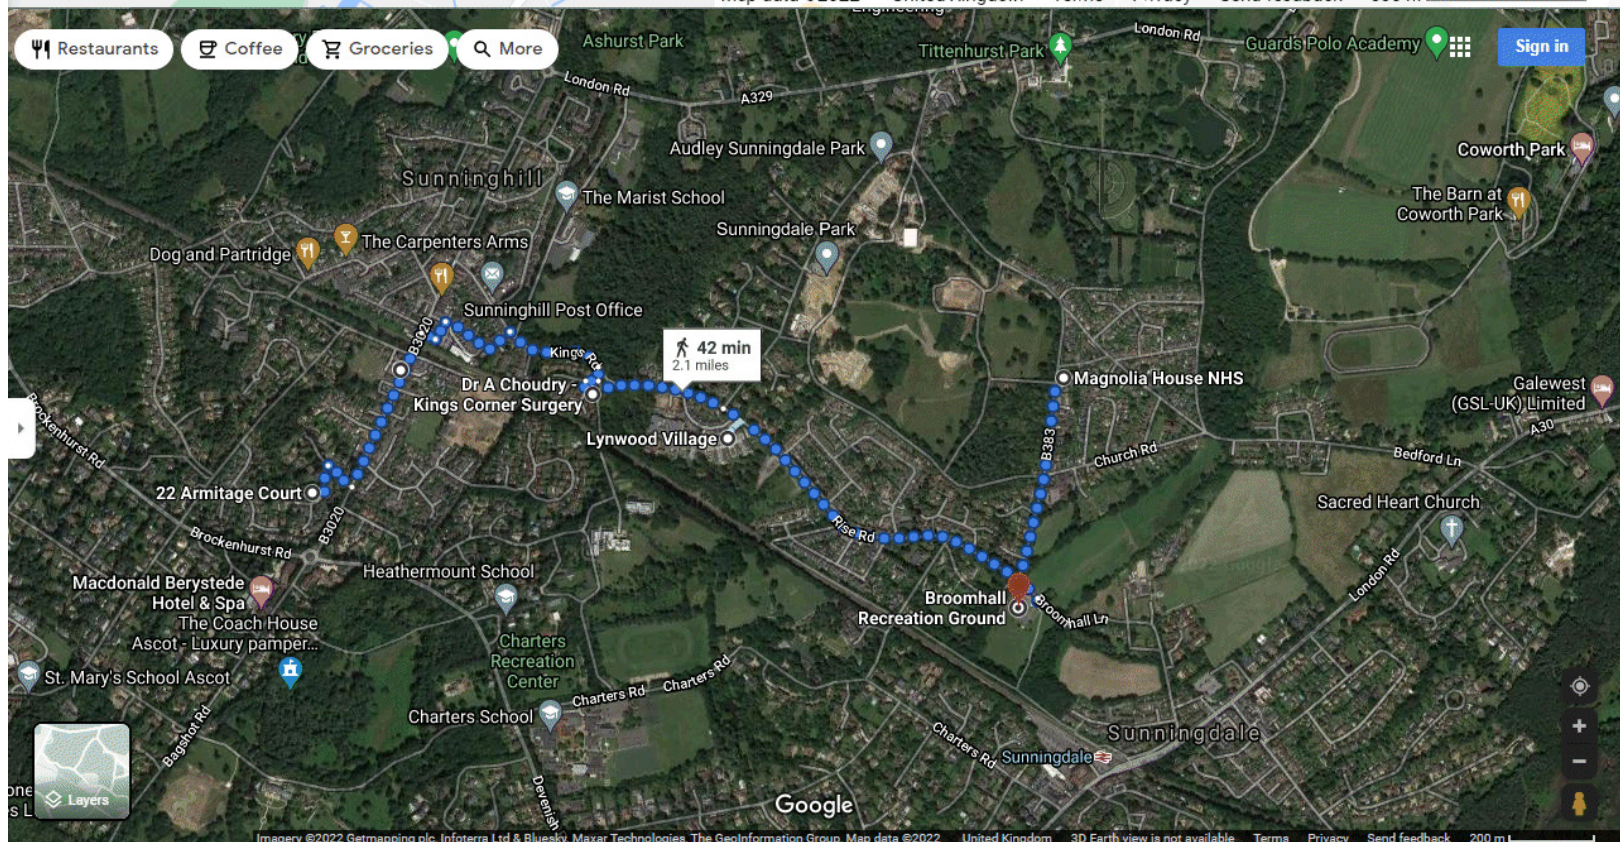

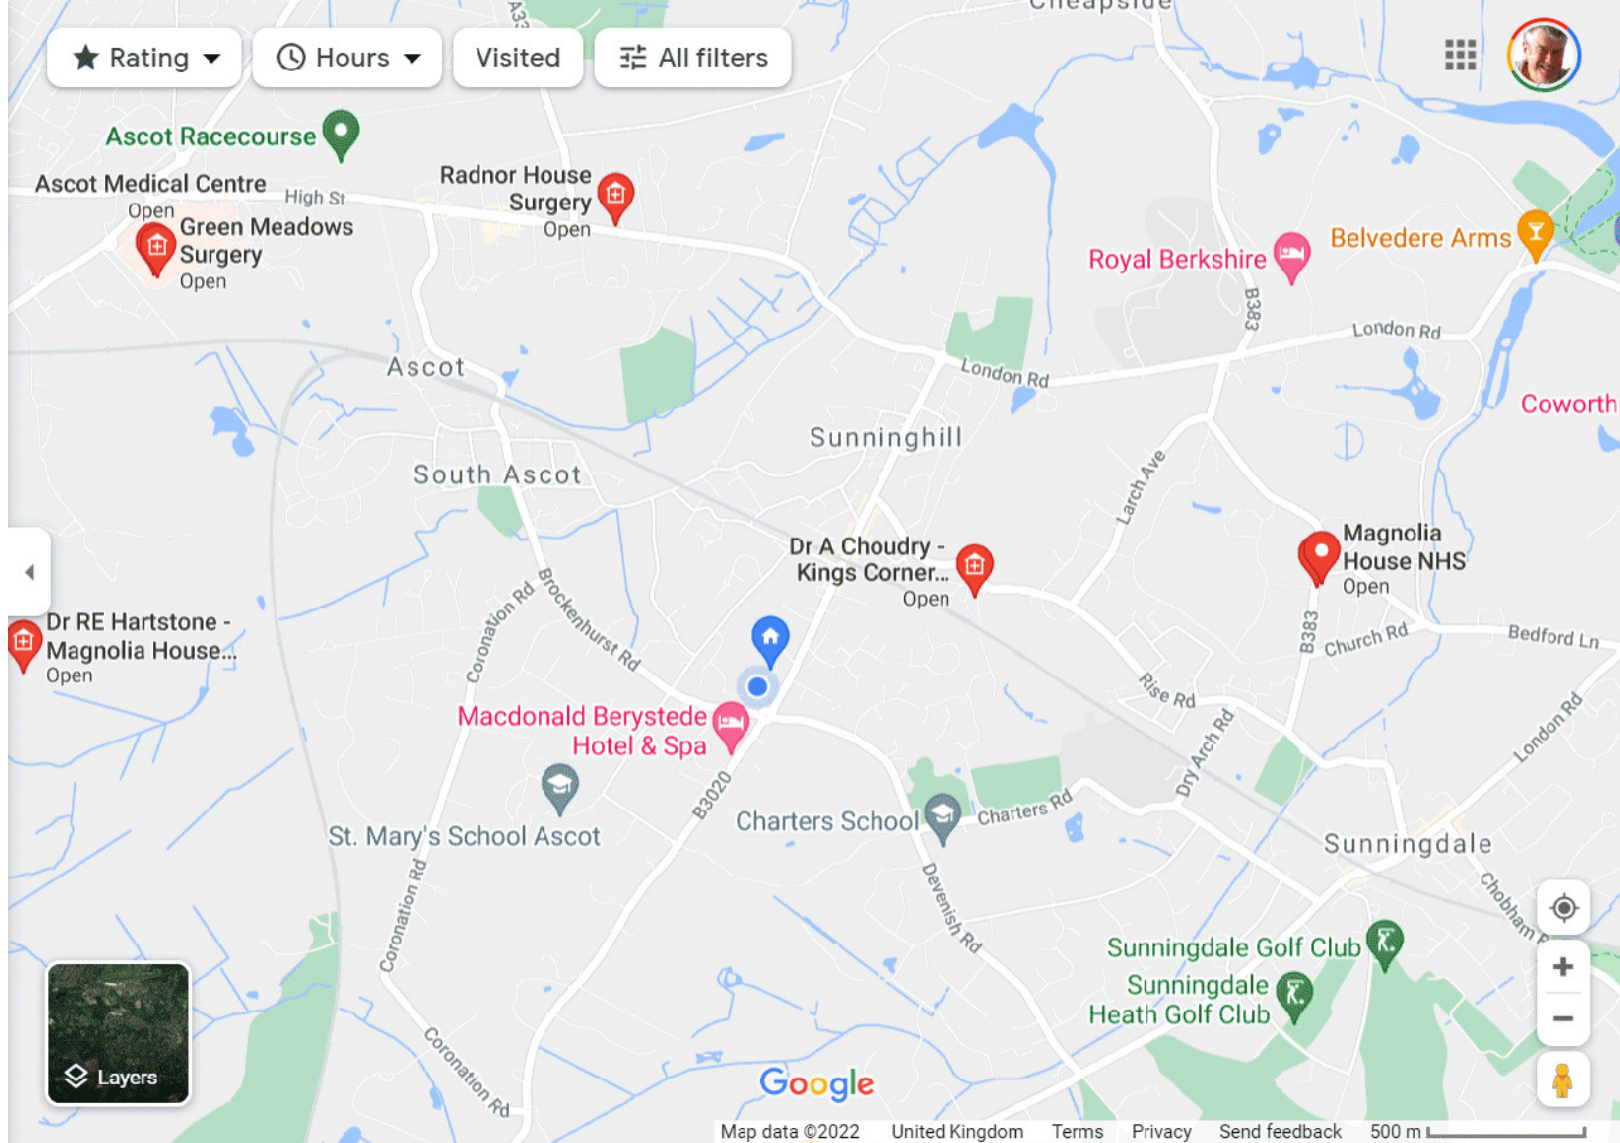

We will all see what happens, as the days, weeks, and months go by :-)

12. Outstanding Questions. e.g. the Form submitted by Dr Sarah Jones to DVLA ? Other communications ?

During the meeting with Dr Sarah Jones, in Lightwater Surgery, at 1300 on Thursday 13th January 2022, Robin's wife June remembers Dr Jones saying that the Doctor was filling out a Form for the DVLA.

However, she was unable to provide us a copy of it. She said we would need to contact the DVLA, to request a copy of it.

The letter on the right, was sent by Royal Mail recorded delivery, and was delivered the next day, Tuesday 1st March, at 0911. Robin has the DVLA guy's signature of receipt :-)

Anyone looking into the details of this case will obviously need to see all communications between Lightwater Surgery and the DVLA.

It should then reveal if any mistake were made, and if the mistake were understandable.

Subject: "... you must not drive" letter to Robin Lovelock in Sunninghill dated 02 February 2022

Dear Tim Burton,

Thanks for your letter of 2nd February, which came as a surprise to my family, friends, and myself.

Please, at your earliest convenience, send me copies of all communication between yourself and my Lightwater GP Surgery - in particular the form filled in by Dr Sarah Jones, after the meeting with myself and my wife, on Thursday 13th January 2022. If you are able to send this both by post, and by email, in a standard format such as PDF, so much the better. My email address is robin@gpss.co.uk

I am sure that you and your colleagues will be surprised that I have put all evidence in my case into the Public Domain. See www.gpss.co.uk/ffdvla.htm I hope you will not be too distracted by the amusing cartoons and videos, but they form part of the evidence :-)

I also enclose the large printout of the above as a paper PDF document: www.gpss.co.uk/ffdvla.pdf

You are most welcome to share the above with whom you wish, including colleagues, friends, family, and Governments. I suggest that the link is not posted on Social Media resulting in lots of visitors. I simply want the right people to see the evidence, and help reveal what has happened.

I realise that you and your colleagues may be working in difficult circumstances, but look forward to your assistance in this matter.

Yours Sincerely,

Robin Lovelock

13. Robin Can Drive Again. Not an April Fool's Day Joke ? :-)

This letter was received by email to Robin at 1351 BST on Friday 1st April 2022. What "further medical information" and when ? Hopefully this is not an April Fool's Day Joke ? :-)

Friday 1st April 2022 and our Spaghetti Tree is in flower again ...

Robin and June pose proudly beside the Spaghetti Tree in their back garden which continues to flower every year. The tree is now over 46 years old, having been raised from a small seed collected by June and Robin during a holiday in northern Italy in 1976. The trip was funded by NATO, we hired a Fiat 500, and Samantha, just two years old, kept shouting "Spaghetti!". We stayed in Abbano Terme near the military base inside Monte Venda - no longer secret - Google it :-)

These Spaghetti trees, very rare outside Italy, cannot be grown from cuttings or the fruit - many have tried planting spaghetti, but with disappointing results. We've also tried tagliatelle, but that also did not grow. This particular variety is "Spaghetti Monstera Grande" - known to some seasoned gardeners as "Big Whopper". Tap or Click on us to enlarge the photos.

You can see the original BBC TV broadcast about the 1957 bumper italian spaghetti harvest if you click [here](#) or the first youtube video below.

After that are videos of Robin's early robot boats, built for Snoopy to cross the Atlantic, from UK to USA. Yes, that was Robin who saved that antelope :-)

The piece above was first on the GPSS homepage during 1st April '98. It has had minor updates over the years :-)

Dear Mr Lovelock,

Further Medical Information

Dr Sara Jones has sent us further medical information following our decision that you must not drive.

The information has been received and reviewed by a Medical Advisor at the Agency, from which they have decided to lift the Revocation of your Driving Entitlement, **therefore you now hold cover to drive.**

The Agency is now in the process of writing to your consultant for further information, from which we will be in contact with you to provide an update.

Should you have any further questions please contact us on the above details.

Yours sincerely,

Robin & June reply to surprise
NS76 letter from DVLA ??? :-)*

If you read the DVLA letter below, and Robin (and June's) reply, you may see why it was a surprise. What's going on ? Do some of us get "special treatment" from the DVLA ?

I can see the argument for why it might happen: maybe a lot of road accidents are caused by drivers under the influence of drugs and/or alcohol. Some of these guys get NHS treatment, including being kept in a Funny Farm, and regular visits from Social Services - often checking for syringes or bottles of booze :-)

15. Footnote added after SMS Text from Lightwater Surgery on 27 October 2022.

from Robin on Tuesday 1st November 2022: This page may get updated, if and when Robin has time to do so.

In brief: Robin was surprised to receive an SMS text from the Lightwater Surgery IT system (or NHS system), on 27 October 2022. It's contents implied Robin was still in the Mental Health support system. Does everyone get a text to remind them to contact their surgery? It might be easy to 'phone, as the SMS requests, and decline the blood test, before a check. But would the consequences be as happened before? e.g. the DVLA suddenly sending a letter saying Robin should not drive? Nobody has answered the outstanding questions on this page, regarding communication between the Surgery and DVLA.

o, Robin has decided to publish this, other than to put this in the public record. As it happens, the details of the SMS, including the person to 'phone, and 'phone number, is already in the public domain - but you need to know where to look.

Robin repeats his sympathy for those trying to earn a living in difficult times. This obviously includes GP Surgery businesses, who must compete with others. They obviously get very little income from an NHS patient, unless the patient makes an appointment. Maybe even the DVLA, particularly if it has sub-contracted work, such as that by the DVLA Drivers Medical Group ?

Should Robin get a DVLA letter, telling him not to drive, he will, of course, obey the instructions, as before. However, this time, he will make more use of taxis, and public transport, keeping a record of all his expenses. He knows more than one law firm who will be happy to raise a case action, for the many (tens or hundreds of thousands) of people who may have suffered the same "procedure" or "mistake" - deliberate or otherwise :-)

Robin has not charged for his time for many years - much more per hour than most doctors, lawyers, or Consultants :-)

"Business is Business" after all :-)

from Robin on Wednesday 23rd November 2022: No need to change any of the above, other than to report that a very similar "reminder" message, as that SMS of 27 October, was received by email, headed "Accurx Ltd". See [Accurx on Wiki](#) . Directors are on <https://find-and-update.company-information.service.gov.uk/company/10184077/officers> . As it happens, their office is near the area familiar to Robin, while at [City University](#) in the late 1960s :-) As Robin says, no need to change information earlier on this page :-)

Tuesday 29th November: Friendly & professional call from same Nikki Br***s at 1137: Same question as in SMS and emails: did I want a mental health assessment ? I thanked her and said "No", including the offered review in a years time. I mentioned that I should be out of the mental health system by now, although it was understandable that some contractors might prefer I was not :-) I also confessed that all this was public, even if very few people looked at it :-) Nikki seemed to be happy with what I said, so we will see what happens, if anything, in due course. No need to change anything above, including the words alongside that amusing image of Snoopy :-)

16. Footnote after (uncorrected?) letter from DVLA of 18 Jan 2023 (Medical Examination)

The (unsigned) letter from the DVLA "Drivers Medical Group" requested Robin to make an appointment with the Consultant Psychiatrist at the Cardinal Clinic at Oakley Green near Windsor.

Robin did consider doing nothing, as a year earlier, but decided he might learn more by making an appointment: not just confirmation that he did not need help, but also things like "cash flow" within the DVLA/NHS/Social Services and contracted companies.

Robin rang the Cardinal Clinic and spoke to Rosy, who put him through to Tanya, who checked the files. IMPORTANT: Tanya advised Robin that they had communicated with the DVLA, including a 'phone call, explaining that the Cardinal Clinic did not do this sort of work for the DVLA. Tanya said that the DVLA Medical Group should be sending me another letter, with a different place to book an appointment. This letter never arrived. Instead, Robin received that in section 18 below.

Maybe there was a mistake in the DVLA Medical Group System ? e.g. they thought Robin had failed to make an appointment ? Should he still be doing this anyway ?

Dear Mr Lovelock,

Important – a medical examination is required

We are considering your fitness to drive and have decided that you should have a medical examination and see:

Please contact:
Consultant Psychiatrist
Cardinal Clinic

Details such as phone number and address redacted by Robin to reduce risk of their time being wasted by the wrong sort of guys :-)

What you need to do

Step 1: Wait at least 7 working days from receipt of this letter	Step 2: Contact the receptionist to book an appointment (you must inform them the examination has been requested by the DVLA)	Step 3: Tell DVLA your appointment date by ringing the medical appointment confirmation line on 0300 083 0104
--	---	---

Making an appointment

You have 6 weeks from the date of this letter to make an appointment. Once you have made an appointment you must phone the DVLA to let us know the details.

Please call the medical appointment confirmation line on 0300 083 0104.

The information you provide will be used to update your case only and will not be shared with any third parties or used for any other purpose.

Attending your appointment

When you ring our confirmation line, you will need to provide your:

1. medical case number ("Our Reference" printed on all of our letters to you)
2. date of birth
3. date of the appointment
4. daytime contact number

Failure to notify the DVLA of your appointment details may result in your Group 1 car and/or motorcycle licence being revoked (cancelled) or your application refused.

APPTCONS

Page 3 of 4

Attending your appointment

To avoid any delays on the day of your examination, you must take this letter and one other form of identification, for example, your passport, bank statement, a recent utility bill (showing your name and current address). You must also take your medication and glasses or contact lenses, if you wear them when driving.

If you do not keep your appointment your Group 1 car and/or motorcycle licence will be revoked (cancelled) or your application refused.

Appointment fees

DVLA will make payment for the examination directly to the Consultant or Hospital but cannot pay for your travelling or other expenses.

Should you receive any invoice relating to this examination, please send it to DVLA at the above address. You should not make any payment to the Consultant, Hospital or NHS trust.

Please note, if you fail to attend the appointment and do not let the Hospital or doctor's secretary know, you may be liable for any fee charged.

The Law: Section 94(5) of the Road Traffic Act 1988, Section 94(8) of the Road Traffic Act 1988

Attending your appointment

We will allow three weeks from the date of your appointment for the doctor to return the paperwork to DVLA. If we do not receive it within this time we will write to remind the doctor.

Our DVLA doctor(s) may then need to review the results of the examination. Due to current high workloads this may take several weeks.

We may also need to write to your doctor or consultant for further information. If we need to do this we will write to you to let you know.

Rev Mar 18

Yours sincerely,
Drivers Medical Group

More information in due course: if and when Robin has the time :-)

17. Footnote after DVLA letter of 9 Feb 2023 (Medical Review Licence?)

In brief: the (digitally signed "Tim Burton") letter from the DVLA Medical Group says: QUOTE We have completed our medical enquiries. As your medical condition could effect your fitness to drive, the law requires that your driving licence is subject to medical review. To do this we must withdraw your current licence and replace it with a medical review licence which will be valid for 1 year. UNQUOTE.

HOW did they complete their medical enquiries ? Was this just a simple mistake related to section 16 above ? If so, should Robin follow what could be incorrect instructions ? :-)

Dear Mr Lovelock,

Important information about your driving licence

We have now completed our medical enquiries. As your medical condition could affect your fitness to drive, the law requires that your driving licence is subject to medical review. To do this we must withdraw your current licence and replace it with a medical review licence which will be valid for 1 year.

What you need to do

Within 21 days of the date of this letter, you need to:

- fill in the enclosed declaration form (D202)
indicate on the declaration form if you do not have your current licence
send the completed forms to us using the enclosed envelope.

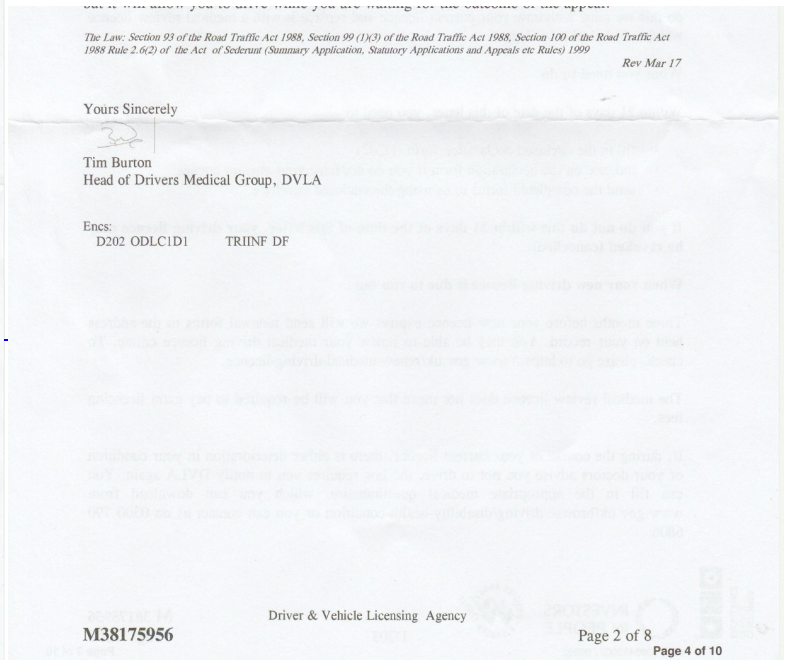

If you do not do this within 21 days of the date of this letter, your driving licence may be revoked (cancelled).

When your new driving licence is due to run out

Three months before your new licence expires we will send renewal forms to the address held on your record. You may be able to renew your medical driving licence online. To check, please go to https://www.gov.uk/renew-medical-driving-licence.

The medical review licence does not mean that you will be required to pay extra licensing fees.

If, during the course of your current licence, there is either deterioration in your condition or your doctors advise you not to drive, the law requires you to notify DVLA again. You can fill in the appropriate medical questionnaire, which you can download from www.gov.uk/browse/driving/disability-health-condition or you can contact us on 0300 790 6806.

18. Footnote after call on 17 Feb 2023 from Victoria at DVLA Medical Group

Robin received a friendly and professional call from Victoria, of the DVLA Medical Group, at about 0920 on Friday 17th February 2023. The main purpose of the call was to check that Robin had received the letter dated 9 February 2023 in section 17 above. But if you listen to the recording, you will understand why Robin's confidence in the DVLA people was boosted. e.g. relaxed about the recording being public, and - more importantly - she and colleagues are DVLA employees, rather than working for a contracted company. Most important of all: a real, experienced, person, rather than a 'bot (Robot) :-)

I was delighted to read details of Julie Lennard, CEO of DVLA in post since March 2018. Ladies: despite my constant teasing, with quotes such as "You stupid woman", from Rene of 'Allo 'Allo, and acting as a "male chavaunist pig", those I admire most include women. e.g. the late Sandy Hopkinson, my workmate at EASAMS who briefed Maggie Thatcher leading to the large defence contract with Malaysia. Relevant? Maybe, and maybe not :-)

More information in due course: if and when Robin has the time :-)

19. Footnote after Robin's letter of 22nd February 2023 with lots of supporting paperwork.

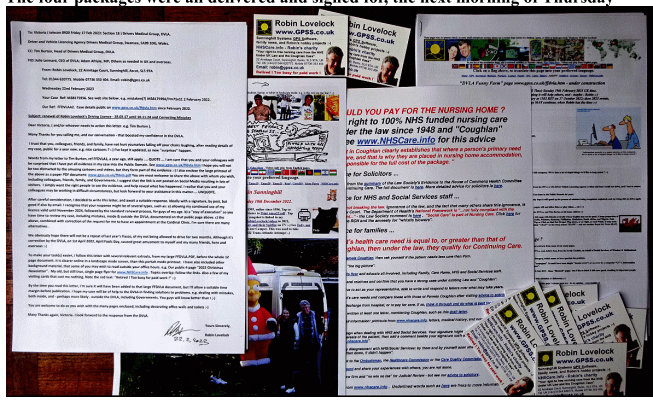

Click or Tap on the pictures to expand and see detail. e.g. attached paperwork. The one page letter had pages stapled to back for clarity: Landscape mode screen extracts of (a) top of this "DVLA Funny Farm page" including the cartoon; (b) Section 15 above; (c) Section 16 above; (d) Section 18 above.

After the letter, with it's 4 screen shots, the other contents were: a) the public two double sided pages of 2022 Christmas Newsletter from the Lovelock Family in Sunninghill, that includes a humorous, but true, summary of last year's events. Then Robin's single page NHSCare.info Coughlan Campaign Flyer. Then the 12 single-sided pages of the earlier public copy of this page, dated 1035 UK time Sunday 19th February 2023. This ended on section 18 above: the lovely 'phone call from Victoria at the DVLA Medical Group. Then ten of Robin's visiting cards, which he sometimes gets free, because of his charity work :-)

The four identical parcels, to those shown on the letter below, were sent by Royal Mail Recorded Delivery. Robin and June gave them to the lovely lady at Sunninghill Post Office, at 1530 on Wednesday 22nd February 2023. They then made an "exploratory visit" to the nice Cardinal Clinic mentioned in section 16 above. The four packages were all delivered and signed for, the next morning of Thursday 23rd February. .

Subject: renewal of Robin Lovelock's Driving Licence - 28.03.17 until 10.11.24 and Correcting Mistakes Dear Victoria, (and/or whoever needs to action this letter. e.g. Tim Burton).

Many Thanks for your calling me, and our conversation - that boosted my confidence in the DVLA. I trust that you, colleagues, friends, and family, have not hurt yourselves falling off your chairs laughing, after reading details of my case, public for a year now. e.g. nice cartoons ? :-) I've kept it updated, as new "surprises" happen. Words from my letter to Tim Burton, ref FFDVLA1, a year ago, still apply QUOTE ... I am sure that you and your colleagues will be surprised that I have put all evidence in my case into the Public Domain. See www.gpss.co.uk/ffdvla.htm I hope you will not be too distracted by the amusing cartoons and videos, but they form part of the evidence :-) I also enclose the large printout of the above as a paper PDF document: www.gpss.co.uk/ffdvla.pdf You are most welcome to share the above with whom you wish, including colleagues, friends, family, and Governments. I realise that you and your colleagues may be working in difficult circumstances, but look forward to your assistance in this matter.... UNQUOTE. After careful consideration, I decided to write this letter, and await a suitable response. Ideally with a signature, by post, but good if also by email and 'phone. I recognise that your response might be of several types, including: a) allowing my continued use of my licence valid until November 2024, followed by the standard renewal process, for guys of my age. b) a "stay of execution" so you have time to review my case, including well documented mistakes, on that public page above. c) the above, combined with that earlier (mistaken?) procedure for me to have an appointment at the Cardinal Clinic. I'm sure there are many alternatives . We obviously hope there will not be a repeat of last year's fiasco, of not being allowed to drive for two months. Although it's correction by the DVLA, on 1st April 2022, April Fools Day, caused great amusement to myself and my many friends, here and overseas :-) To make your task(s) easier, I follow this letter with several relevant extracts, from my large FFDVLA.PDF, before the whole 12 page document. It is clearer online on a landscape mode screen, than this portrait mode printout. By the time you read this letter, I'm sure it will have been added to that large document, but I'll allow a suitable time margin before publication. I hope my case will be of help to the DVLA in finding solutions to problems. e.g. dealing with mistakes, both inside, and - perhaps more likely - outside the DVLA. You guys will know better than I :-) You are welcome to do as you wish with the many pages enclosed, including decorating office walls and toilets :-)

Many Thanks again, Victoria. I look forward to the response from the DVLA. Yours Sincerely,
Robin Lovelock.

NO RESPONSE YET. Nothing to add here yet. Robin waits in anticipation :-)

20. Who has visited this page ?

From Robin: It's very convenient for me, that there are so few visitors to this page: just those given the link. See map and words near end of my [Home](#) page :-)

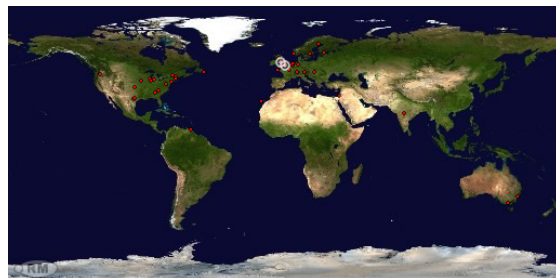

The visit counters may give a rough indication on who else is visiting, or has visited, this page. I don't hide or disguise my visits, but they may appear as "Ascot", or miles away, like "Southend-on-Sea, England" (on my Lounge PC), or "West-Drayton, England" (on the Study PC). Positions may not be accurate, but times are. These may change at any time, without control by me. e.g. if we have a power cut, or I reboot a router. So, you may see if I'm "working" in the Study, or "relaxing" in Lounge :-)

Not all visits are seen, and some browsers hide location, but you may find [Revolvermaps livestats for this "DVLA Funny Farm" page](#) of interest. There are a lot of British Nationals overseas, with elderly relatives in UK.

The video on the right shows several guys visiting my [Covid19](#) page, shortly after I posted the link to the [Microtransat](#) forum, linked from the [Snoopy Robot Boat](#) page. That's right - Hobby activity and Charitable Causes, rather than earning money. Us [Grumpy](#) old men sometimes find that, "there are just not enough hours in the day" :-)
