Watch the video of Pamela Coughlan, then ask yourself if the patient needs less care than Pam.

See the overview for "the big picture".

print the <u>NHSCare.info flyer</u> and educate all involved, including Family, Care Home, NHS and Social Services staff.

discuss with friends and relatives and confirm that you have a strong case under existing Law and "Coughlan".

find a friend or relative to act as your representative, able to write and respond to letters over what may take years.

document the patient's care needs and compare these with those of Pamela Coughlan after visiting advice to solicitors

keep a paper file of all information: printouts from <u>www.nhscare.info</u>, letters, medical history, and notes of meetings - with names.

record in writing any disagreement with NHS/Social Services: by them and by yourself soon after the meeting. They might later claim, "if it's not written down, it didn't happen".

consider a complaint to the <u>Ombudsman</u>, the <u>Healthcare Commission</u> or the <u>Care Quality Commission</u> - these can change.

visit the <u>message board</u> and share your experiences with others; you are not alone.
